## It exist Afghan style solution

Dear Mr. President Karzai,

I know, you will not put your attention to the link at the bottom, but I am sending it to you to see it, what kind of government you have and what kind of Parliament exist in Kabul and cities. No body want to blame any body, but

we see the staffs of your government and their actions and the member of parliament and their actions in the past and at the present time. You will never be able to establish peace and security in country even with support of 200000 foreigner soldiers and with Pakistan support, you are playing double games, in reality you do not care about the nation and their suffering. The nation was patient to you during the seven years, but as it saying enough is enough!

You know may be, that your surrounded people are cooperating with the Talibans, may be with your agreement, if you do not know it, then I am telling it to you now.

Do you know the behavior of boarder people in country?, in case if you know it, then they can be not bring under control by using heavy weapon and insulting.

You had to be honest to the nation, you would not misused its trust and hope, you had to start projects in country, specially in critical areas, I tried to motivate you, but you did not care.

The nation is real power and you never understood it, your preferential for your ruling in country was it to serve for killer, criminals and corrupted elements. It is cheating to say, that it did not exist other choice, no it existed the best chance to keep them away from power, you had to act as president of Afghanistan to guide the direction of future of nation and not followed the dirty politic game of Mr. Khalizad.

You have put nation into trouble and the people are angry on you and on your government now, you damaged the best existed chance for peace, security in country and dream of prosperity of nation. Thanks your actions the Taliban are enjoying the present situation in country.

How it is possible, that you as President to implore the killer, criminals in Parliament and the member of your government through your hypocrite speech in parliament and said like as slave of them and as President:

"PLEASE STOP CORRUPTIONS, OCCUPYING THE PROPERTIES OF HELPLESS PEOPLE"!

It is shameful, you had to act as president against them and not implore them!

An other your huge mistake is it, that you are going from time to time to

some provinces and announcing regard their innocent killed people and wished them paradise und promised their related to send all of them to MEKKA, what kind of dirty game you are playing?  
It is a joke in country now:

Mr. installed President has no power and he is liar and worst actor!

All Afghans convinced of your treacherous game, that you want to stamp all Pashtonen as Taliban and eliminate and insult them, the Alliance of Nation and Afghan Mellat are supporting you with enthusiasm!

You opened a second dirty game, namely to motivate the fanatic follower Hazaras of Iran regime to demonstrate in Kabul city their exported barbaric actions, such action will have the same effect like the fanatic Taliban and the result at it will be to eliminate the Hazaras with the reason, that they are following the instructions of Iran regime. In such case, we will continue the war in Afghanistan for decade!

Shashojagh had more courage than you, he could tell to the patriots at least, he has no power, he is sitting in his palace as prison, but you have the impudence to announce your nomination for the next artificial election.

You are announcing in additional that you are condemning the killing of innocent people and you are claiming regular for it by foreigners commanders, but no body is listening to you.

The people are telling to you as answer, if the situation is so as you are describing "why you do not prefer respectable resigning"???

Mr. G. W. Bush selected group is impertinent, they Mr. Jalali and Mr. Ashraf Ghani) are reflecting to nominate themselves for the next artificial election too. I am sure the killer group will announce its nomination too soon( may be Mr. Rabani and may be Golabzoi), YES we have there pseudo exported democracy now!!!

Mr. Jalali and Mr. Ashraf Ghani are at the same level guilty for the killing of innocent people like you, because both of them including Mr. Anwarul Haq Ahadi and Alliance of Nation attended by creation of dirty foundation for killing, insulting and robbing the nation!

It is a circus, it is shameful to act with nation in such a way. If I would you, I would not nominate myself for the next symbolic election including Mr. Jalali and Mr. Ashraf Ghani and an other parsites.

The best solution is to let provisional government with qualified, honest and to nation close personalities in cooperation with UN for limited time, such personalities are existing, then you will see it, how fast it will be establish peace, security and the nation will get hope of prosperity in country and killer and criminals will be brought to international court in Kabul.

Al Qaida and its supporter will disappear with support of nation, no body

---

wants to have WAHABISM and IRAN REGIME exported barbaric religion influences.

May be you remember it, I made such similar suggest in present of Mr. Arsala ( he was at that time your 1. Deputy) very clear in Arg 2003, but

I could not get any replay later on!

You should not count so much on 10% Mr. Zardari, he has his own dream, BROTHER BROTHER saying should be not take serious by such people, he collected 10% commission when his wife was premier minister in Islam Abad!

Pakistan, Iran and Russian put already with your help in government and in Parliament their spies, CIA failed and CIA put its own country, Afghanistan and Iraq into huge huge horrible disaster.

I know, you praised by USA and EU at beginning and you became arrogant egoistical, you will not hear and read any voice of innocent peoples.

Mr. elected President of USA will increase the amount of soldiers, but he will realize it, that it will create more trouble and he had to listen then to patriots and accept the willing of Afghan Nation!!!

Best regards

Gharwal
